

EVERGREEN PLANT IDENTIFICATION

Questions are based on Mike Wissert's lecture, the Truckee Meadows Water Authority Landscaping Guide, and the cd study disk.

Please write the correct common name next to the botanical name.

Common Name	Botanical Name
	<i>Abies concolor</i>
	<i>Calocedrus decurrens</i>
	<i>Cercocarpus ledifolius</i>
	<i>Juniperus chinensis 'Torulosa'</i>
	<i>Nandina domestica</i>
	<i>Picea pungens</i>
	<i>Pinus longaeva</i> or <i>aristata</i>
	<i>Pinus mugo</i>
	<i>Pinus nigra</i>
	<i>Pinus ponderosa</i>
	<i>Pinus sylvestris</i>
	<i>Pyracantha coccinea</i>
	<i>Rhododendron</i> spp.
	<i>Taxus</i> spp.
	<i>Thuja occidentalis</i>
	<i>Artemesia tridentada</i>
	<i>Hedera helix</i>
	<i>Euonymus fortunei</i>
	<i>Juniperus horizontalis</i>
	<i>Pieris japonica</i>
	<i>Pinus monophylla</i> or <i>edulis</i>
	<i>Pinus flexilis</i>
	<i>Cupressocyparis leylandii</i>
	<i>Mahonia aquifolium</i>
	<i>Pseudotsuga menziesii</i>

1. How can you distinguish fir, spruce, and pine needles? (3pts)
2. What are Nevada's State Trees?(2pts)
3. Of all the plants Mike presented, which ones are native to Nevada? (8pts)
